Hero 395 Pen

Dear Customer,

Thank you for purchasing from Inkursive Pens. I hope this pen gives you many years of valuable use. I have made some notes below to help you get the best out of it.

In case of any issues, please contact me first as I may be able to rectify the problem.

Features:

- Semi flexible fine nib
- Push fill converter
- Screw converter

Writing

The nib has some flexibility meaning that it will write thicker lines with more pressure. Pressing too hard however can cause 'railroading' where the tines write separate lines or can spring the nib.

Filling

Use only fountain pen ink. India ink may contain particles that can clog the nib.

This pen takes standard international cartridges.

The pen comes with a metal press-bar converter as well as a screw converter.

To fill with the press-bar converter insert the nib into ink and repeatedly press and release the bar.

Replacing a cartridge

Unscrew the barrel

Remove the empty cartridge

Insert the cartridge. Push until it clicks

Screw the barrel back on

Filling the converter

Insert the nib
into the ink.

Twist the
converter
knob till the
converter is
full

If you have any issues or comments, please contact me on the email above or via the site where you purchased the pen.

Please leave feedback for the pen wherever you bought it, whether your experience was good or bad, as this helps other buyers as well as myself.

Again thank you for your purchase, and I hope you enjoy your new pen,
Tom Kelsey

PS If you have time, I would love to hear your thoughts and/or pictures of your new pen on a review where you bought it
