Leonardt EF Principal Nib

Dear Customer,

Thank you for purchasing nibs from Inkursive. I have made some notes below to help you get the best out of them

These nibs is not intended for use by children under the age of 14.

In case of any issues, please contact me first as I may be able to rectify the problem.

The best-selling nib from Leonardt, the EF Principal is an extra-fine flexible nib suitable for both Copperplate and Spencerian writing styles.

In bronze finish for better rust resistance and durability.

Preparation

New nibs come with a protective oil coating. Remove this by gently scrubbing with toothpaste, rubbing alcohol, or warm water and washing up liquid (dish soap). Alternatively, you can carefully burn off the residue with a lighter.

Use

The nib can be used with any dip pen with a 'universal' ferrule, and oblique holders with a metal flange. Place the nib into a compatible pen holder. Ensure it fits securely and is aligned properly.

Dip the nib into your ink, covering about half of the nib. Tap off any excess ink on the bottle's edge to prevent blotting.

Use smooth, even pressure when writing. The Leonardt EF Principal nib is excellent for creating fine hairlines and thick down-strokes, ideal for Spencerian and Copperplate scripts. Use your arm to guide the pen rather than just your fingers for better control.

Cleaning

After use, clean the nib with water and dry it thoroughly to prevent rust.

If you have any issues or comments, please contact me on the email above or via the site where you purchased the nibs.

Please leave feedback for the nib wherever you bought it, whether your experience was good or bad, as this helps other buyers as well as myself.

Again thank you for your purchase, and I hope you enjoy your new nibs,
Tom Kelsey

PS If you have time, I would love to hear your thoughts and/or pictures of your new nibs on a review where you bought it
